Assembly - use the “tail” of the body part being sewn unless stated otherwise

1. Sew on the fingers to the tip of the arm. make sure that you are only sewing the tip of the fingers [see pictures below for reference]
2. sew on the “palms” of the feet to the bottom of the legs [see pictures below for reference]
3. sew on the tip of the toes aka the bottom of the circle to the legs. make sure that it's proportioned to your leg's “palm” [see pictures below for reference]
4. sew on the white part of the eye to the black. sew the black part to the blue part. make sure that when sewing the black part to the blue, it's towards the bottom of it. do not cover the part where it's made up of hdc
5. sew on the inner ear to the outer ear. use the tail of the outer ear in sewing the inner ear. note that you should NOT cut off the excess tail from sewing. this will be used again
6. sew on the ears to the head of your stitch! use the excess tail from when you sewed on the inner ear to the outer ear
7. semi-stuff the head just to get a gist of the shape
8. sew on the left eye first. make sure it's proportioned to the ears
9. stuff the nose
10. sew on the nose approximately 2 sts away from the eye [horizontally], to make it proportioned-ish, i aligned it as well to the black part of the eye
11. sew on the right eye with respect to the left eye and the nose
12. stuff the entire head completely

13. stuff the arms, legs and tail as well now. make sure that you do NOT overstuff them
14. sew on the tail and legs to the bottom of the body. make sure that the legs are half within the powder blue part of the body and the other half is on the blue part of the body. make sure than when sewing the tail, it's equidistant from the right and left leg.
15. stuff the body halfway
16. sew on the stuffed arms to the upper body.
17. fully stuff the body of stitch
18. sew on the head to the body using the excess tail from the body.

19. your stitch is now ready to be loved-up and hugged!
